S33 Automatic Brick Making Machine

Our S33A static type brick, block & paver making machine with a 8kw high frequency synchronized vibrator including main & pre-vibration settings. An electrical control panel comprising PLC with full colour touch screen control unit and state of the art electronics provides automatic control with manual override. The hydraulic system drives mould, tamper, aggregate feed box and pallet feeder magazine. Mould boxes and tampers are precision guided. The complete vibrator assembly is bolted to an adjustable vibrating table.
